WALK IN INTERVIEW FOR
FELLOWSHIP IN HEMATOPOIETIC STEMCELL TRANSPLANT NURSING, ACTREC (2026)

TATA MEMORIAL CENTRE is the National Centre under the administrative responsibility of the Department of Atomic Energy engaged in Treatment, Research and Education in Cancer.

The Advanced Centre for Treatment, Research and Education in Cancer (ACTREC) is the state of art R&D satellite of the Tata Memorial Centre (TMC). It is the premier hospital with extensive facilities for total care of patients in the field of Medical Oncology including Hematopoietic stem cell transplant, Surgery and Radiation therapy. Hematopoietic stem cell transplant is one of the most important cancer treatment modality for hematological malignancies. We believe that super specialized fellowship in Hematopoietic stem cell transplant nursing will help trained nurses to take keen interest with confidence and responsibility in patient care including family. Fellowship in this course will also aide other regional and upcoming general and cancer hospitals to upgrade their manpower in due course to take up the challenges of caring for patients undergoing chemotherapy and Hematopoietic stem cell transplant.

1.	OBJECTIVES	At the end of the fellowship, the nurse will be able to describe the concepts, principles and standards of caring for a patient undergoing Hematopoietic stem cell transplant. Acquire knowledge and develop skill in caring for patients undergoing Hematopoietic stem cell transplant. Provide comprehensive care using nursing process. Develop ability to identify and manage complications and report to concerned authority. Demonstrate positive attitudes in counseling patient and their families. Rehabilitate patient and family. Collaborate with other agencies and assist in utilizing resources effectively. Teach and supervise nurses and other allied health workers.
