

## **AACR On Campus' at ACTREC, Tata Memorial Centre Oct 31st and Nov 1st, 2023**

The American Association for Cancer Research "AACR on Campus" (AACRoC) is an exciting two-day program to be conducted for the first time in India at ACTREC in collaboration with American Association of Cancer Research.

AACR has a keen commitment to educating young research scholars, trainees, and clinicians. Therefore, the major thrust of this meeting will be to promote awareness on the activities of the AACR on cancer research and education among the young research scholars, trainees, and clinicians in India and to create opportunities for collaborations and joint funding for research.

There will be a dedicated session by AACR on Collaboration, Scientific Communication, and Grant Writing aimed at young minds in their formative years. This will be followed by three scientific sessions on Lung Cancer, Gastrointestinal Cancers and Breast Cancer by eminent faculties from leading cancer research institutes of USA, ACTREC-TMC the leading Cancer Research Centre and Hospital in India and by distinguished Faculties from Institutes and Industries across India engaged in Translational Research. We will have poster session and short talks from young Investigators and Students, selected from abstracts on cancers relevant to India.

**Young investigators and research scholars are highly encouraged to use this opportunity to present their scientific findings and exchange ideas to the wider scientific community and interact with the pioneers of AACR & Indian Scientists.**

## **AACR On Campus' at ACTREC, Tata Memorial Centre Oct 31st and Nov 1st, 2023**

### **Patrons**
